WHAT ARE THE GOALS OF THIS RESEARCH STUDY?

The purpose of this research study is to figure out if a new smartphone app impacts distracted driving, and learn parent and teen perspectives about the app.

WHO CAN BE A PART OF THIS STUDY?

This study is open to teen drivers age 16 – 18 and a parent. Both teen and parent must be a licensed driver and use an Android smartphone.

WHAT WILL PARTICIPANTS BE ASKED TO DO?

Participants will answer some questions about their cell phone usage and driving. Participants will also use a smartphone app for up to 8 weeks and answer occasional surveys. No visits required! You will receive compensation for your participation.

WHAT ARE THE BENEFITS?

There are no direct benefits to participants.

I WANT TO HELP! WHO DO I CALL?

If you are interested in participating in the study or want to learn more please contact our study team at teendriversafety@email.chop.edu or 888-535-CIRP
